Top 3 categories generate nearly equal revenue, about $8.5M each

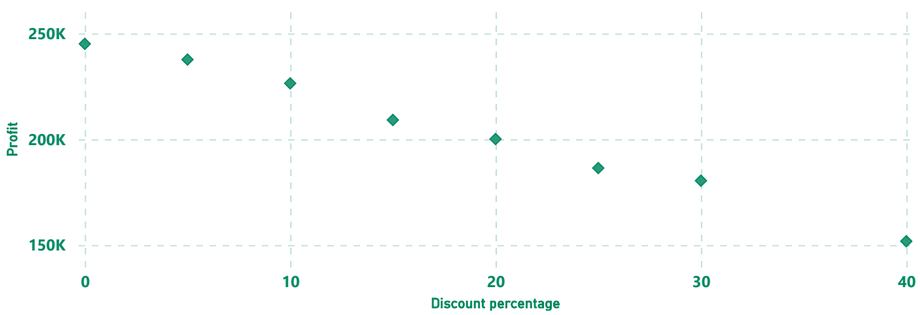

Revenue held steady at about $12M per semester through 2024 H2, varying less than 3%

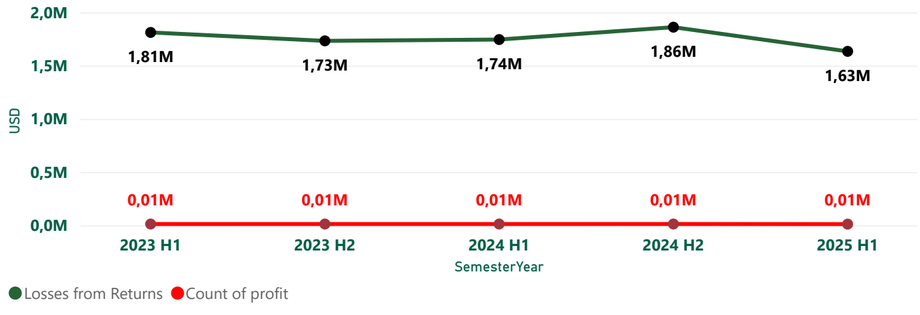

The sharp drop at the end of the timeline (2025 H1) is not an actual decrease in revenue. It simply reflects that the data for this ongoing semester is incomplete. The overall business trend remains stable

Profit drops by roughly $90K as discounts rise from 0% to 40%

Return-related losses hold steady at about $1.7M per semester, with no clear trend
